Semi-Structure Interview Questions:

- Which feature of the GCL system do you find most helpful for learning the course content?
- What do you think are some potential challenges of using the system?
- How does learning with the GCL system compare to your previous experiences with tools in an asynchronous learning environment?
- How would you evaluate the quality of the AI-generated feedback and responses?
- Can you describe a situation in the GCL system where communication was particularly effective or ineffective?
- What additional features would you like to see in the GCL system to enhance your learning experience?
